Dover Baptist Association Against Intemperance and Pologamy.

RESOLUTIONS ADOPTED

Drowned White Bathing.

(Special to Virginian-Pilot.)

Richmond, July 20 .- The Dover Baptist Association is heart and sour against intemperance and polygamy. At its session to-day it adopted resolutions against both these evils, and the debates thereon were full of interest.

Monroe Baptist Church was received attendance can be gotten it is thought attendance can be gotten it is thought attendance can be gotten it is thought attendance will be chosen next meeting.

Monroe Baptist Church was received into the association without dissent, and the application of the Harriman (Tenn.) Church was turned back.

At the session yesterday the association appointed Professor John Pollard and Rev. Messrs, R. B. Collier and G. F. Williams a committee to report recommendations concerning (1) The Young People's Movement, (2) The Liquor Traffic and (3) The Seating of Congressman Roberts, of Utah.

The same gentlemen were appointed as a committee to arrange for the proper celebration next year of the Baptist history of the century just closing.

Baptist history of the century just closing.
Professor Pollard this morning reported the views of the majority, himself and Rev. G. F. Williams, on the subjects assigned to the committee.
The report heartily approved the proposal for suitable celebration next year of the Baptist accomplishments during the century then closing, and recommended that the morning hours of the second day of next year's meeting be set aside for the purpose.
The Baptist Young People's Union was warmly commended.

THE LIQUOR TRAFFIC.

The Baptist Young People's Union was warmly commended.

THE LIQUOR TRAFFIC.
When the question of the liquor traffic was taken up Dr. Pollard reported the following:

"We look upon the liquor traffic as a dark blot on our civilization; as a blot upon our public and social life; as a menace to our free institutions; besides being in direct antagonism to the mission of Him who came into the world 'not to destroy men, but to save them.' We therefore urge our churches to keep themselves clean from all fellowship with a trade out of which spring poverty, ignorance, misery and death, But, inasmuch as liquor-seiling is a result as well as a cause of liquor-drinking, we would urge our members to refrain conscientiously from the use of intoxicating liquors as a beverage and ask our pastors to teach publicly and privately the perils that come to individuals and to the cause from any rule except that of total abstinence from all that intoxicates."

A SUBSTITUTE.

The third member of the committee, Rev. Mr. Collier, announced that he concurred in all of the report save that part which pertained to the liquor traffic. He didn't think this was strong enough and offered the following substitute, which, much to his surprise, was adopted:

"Whereas, The constitution of the Dover Association permits the withdrawal of fellowships from such church or churches as may become corrupt in doctrine or practice,

"Resolved, That this association here-by advise each shurch in withdrawal of the constitution of the by a strong content of the content of the characteristics.

or churches as may become corrupt in doctrine or practice.

"Resolved, That this association hereby advise each church to withdraw from such members as persist in the sale of intoxicating liquors/leither by retail or wholesale, after they shall have been kindly and fraternally remonstrated with on the subject.

"Furthermore, in case any church shall disregard this advice of the association our fellowship shall be withdrawn from such church."

POLYGAMOUS CONGRESSMEN.

The resolutions declaring that the ad-

ciation our fellowship shall be with drawn from such church."

POLYGAMOUS CONGRESSMEN.
The resolutions declaring that the admission of Brigham H. Roberts as a member of Congress would be a disregard of the laws of the United States and that it would also be a violation of the Utah enabling act, were only passed after vigorous opposition by Rev. Dr. Charles H. Ryland, who though the member should be left alone and respect to the distribution of the understanding with which Utah had been admitted of course, he was opposed to the association to pass upon.

HIS MAIDEN BATH.

There was one good feature about yesterday's Christian excursion—Captain Robinson Arnold got a good salt water bath. Captain Bob is 73 years old, and had never before been to Ocean View, and had never allowed the sea billows to break again his person. It was his maiden ocean bath. Captain Bob can't see very well, but he managed to rise every time a wave knocked him down.

When a man's head aches it is because the tissues of the brain do not receive sufficient nourishment from the blood, orreceive impure and unhealthy nourishment. When a man gets nervous and sieepless, it means that the blood is not properly nourishing the nerves. When his skin breaks out with blotches and pimples and eruptions, it means that the skin is being fed upon the impurities of the blood. Almost every known disease is primarily due to improper nourishment through the blood, which is the life stream. Dr. Pierce's Golden Medical Discovery is the greatest of all blood makers and puriners. It gives edge to the appetite, corrects all disorders of the digestion, makes the assimilation of the life giving elements of the food perfect, invigorates the liver, promotes secretion and excretion, and vitalizes the whole body. It makes firm, muscular flesh, but does not make corpulent people more corpulent. My first symptoms were pains in or over my kidneys and next my feet began to feel kind of pricking and I was very thirsty. I drank over three quarts of water or lemonade in one night. I got very weak in my back and legs and dark spots came under my eyes and very severe pains from the base of my brain clear down my spine, and, oh, such darting pains down my legs. At last I got so low that I was as helpless as a child. Some of the doctors called it Bright's disease. This began in January. Being a soldier, I went to the Soldiers' Home at Waupaca, Wis. In the hospital there I was doctored for eleven months. All this time I kept getting worse. As soon as I got the Ripans Tabules I began to gain, and am getting along fine and am gaining in flesh. My age is fifty-five and my occupation a sailor and winters lumbering.
